SCRUMBLE
Instructions:

Each word is an anagram. Unscramble the words, each letter to a square. Unscrambled, the circled letters form the answer to the puzzle.

Eva Guggenheim's "SCRUMBLES," while inspired by the traditional "Jumbles," differ in that the answers to her puzzles complete a phrase or a joke - a bit like a combination of a jumble and Wheel of Fortune - of her own creation. In addition, her puzzles are completely original, in-

spired by her surroundings, everyday circumstances, or in this case, by her hometown of Memphis, Tenn.
